

## ARIZONA 300

ARIZONA je mehanička sejlica za žitarice i sitno seme. Opremljena je rezervoarom velikih dimenzija za bolji radni opseg. Mašina ima neprekidnu kutiju za uranjanje u ulje za precizno i brzo regulisanje količine semena.

Mascar Arizona garantuje regularnu podelu semena za sve redove i ravnomernu distribuciju, čak i ako se radi u područjima sa kosinama. Mašina je dostupna sa raonicima i dvostrukim diskovima.

Technical characteristics	UM	ARIZONA 250	ARIZONA 300	ARIZONA 400
Working width	m	2,5	3,0	4,0
Transport width	m	2,55	3,0	4,0
Max row number		21	25	33
Minimum row distance		11,9	12	12,1
Coulter type		Suffolk coulters/simple disc coulters/double disc coulters	Suffolk coulters/simple disc coulters/double disc coulters	Suffolk coulters/simple disc coulters/double disc coulters
Hopper capacity	Lt	450	520	650
Fertilizer capacity	Lt	–	–	–
